

HERZKRISTALL

Herzkristall is a perfectly well-rounded example of his breed and gender. He combines the good frame and the flawless appearance of a good riding horse model. He possesses three balanced, rhythmic, tactful gaits. There is nothing to criticize in the perfect combination of interior and exterior qualities. In addition, Herzkristall has a remarkable free jumping technique, all of which add up to a stallion of great hereditary value. At his stallion performance test he impressed with both rideability and jump ability. His dam Herzsolo, with her daughter SPS Herzenslust and granddaughter Herzensfreude, won the mare family class at Schlesweig-Holstein. A half sister to Herzenslust was also overall winner at the same show. In 2001 Herzkristall sired the reserve champion foal of all Great Britain, and the most expensive auction filly at Neumünster.
